Int. J. Gynecol. Obstet., 1990, 31: 399—402
International Federation of Gynecology and Obstetrics

Subject Index

Volume 31

abdominal circumference, fetal weight, fundal height, birth weight, measurement, 243
ADPase, platelet aggregation, placenta, pregnancy, umbilical cord, 15
algorithm, ectopic pregnancy, culdocentesis, ultrasound, 29
antenatal evaluation, conjoined twins, thoracopagus monster, managemant in labor, 67
antiprogestin, human, myoma, progesterone receptor, myometrium, 347
Apgar scores, pregnancy, obesity, perinatal mortality, 227
arm circumference, weight, nutrition, women, Lukoy strip, 231
arterial venous malformation, cerebellar hemorrhage, pregnancy, 365

barrier contraception, cervical cancer, ovarian cancer, germ cell tumor, 157
bearing down, labor, second stage, lactate, catecholamines, 117
birth weight, fetal weight, fundal height, abdominal circumference, measurement, 243

carcinoma, cervix, pregnancy, 317
case report, endometriosis, episiotomy, therapy, 75
case report embryonal carcinoma, ovary, 287
catecholamines, labor, second stage, bearing down, lactate, 117
cerebellar hemorrhage, arterial venous malformation, pregnancy, 365
cervical cancer, barrier contraception, ovarian cancer, germ cell tumor, 157
cervical carcinoma, cervical smears, Papanicolaou cytology, cervical dysplasia, HPV-16/18, Dot-blot hybridization, 145
cervical dysplasia, cervical smears, Papanicolaou cytology, cervical carcinoma, HPV-16/18, Dot-blot hybridization, 145
cervical smears, Papanicolaou cytology, cervical dysplasia, cervical carcinoma, HPV-16/18, Dot-blot hybridization, 145
cervix, carcinoma, pregnancy, 317
clinical utility, roll-over test, positive and negative predictive values, pregnancy-induced hypertension, 9
colposcopically directed biopsy, satisfactory and unsatisfactory colposcopic examination, endocervical curettage, 153
combined, pregnancy, extrauterine, intrauterine complications, management, 61
combined intraturine and extrauterine pregnancy, ovarian pragnancy heterotopic gestation, obstructed labor, incomplete uterine rupture, 283
combined pregnancy, ectopic pregnancy, pregnancy, ultrasonography, 361
conjoined twins, thoracopagus monster, antenatal evaluation, managemant in labor, 67
contraception, family planning acceptors, physicians, 47
corpus luteum, endometrial biopsy, effects, luteal phase, endometrial histology, 35
culdocentesis, ectopic pregnancy, algorithm, ultrasound, 29
cytological imprint, frozen section, ovarian tumors, 43
cytology, endometrial carcinoma, hyperplasia, ultrasonography, hysteroscopy, 107

delivery, episiotomy, low birth weight infants, 135
developing countries, low birth weight infant, "kangaroo" nursing, neonatal care, mother child relations, international cooperation, 335
developing countries, prevention, uterine rupture, transfer system, 21
developing country, incidental tuberculous endometritis, infertility, 141
diagnosis, sacrococcygeal teratoma, mode of delivery, 275
dopamine, pre-eclampsia, oliguria, 57
Doppler, umbilical circulation, pregnancy, velocimetry, 127
Dot-blot hybridization, cervical smears, Papanicolaou cytology, cervical dysplasia, cervical carcinoma, HPV-16/18, 145
Down's syndrome, trisomy 21, reproduction, normal child, 81

eclampsia, pattern, morbidity, Ilorin, Nigeria, 221
ectopic pregnancy, algorithm, culdocentesis, ultrasound, 29
ectopic pregnancy, combined pregnancy, pregnancy, ultrasonography, 361
effects, endometrial biopsy, luteal phase, corpus luteum, endometrial histology, 35
embriology of the vagina, single ectopic ureter, unilateral imperforated vagina, renal agenesis and dysplasia, genital malformations, 179
embryonal carcinoma, ovary, case report 287
endocervical curettage, satisfactory and unsatisfactory colposcopic examination, colposcopically directed biopsy, 153
endometrial biopsy, effects, luteal phase, corpus luteum, endometrial histology, 35
endometrial carcinoma, hyperplasia, cytology, ultrasonography, hysteroscopy, 107

endometrial histology, endometrial biopsy, effects, luteal phase, corpus luteum, 35
endometriosis, episiotomy, case report, therapy, 75
epidemiology, oral contraceptives, glucose tolerance, plasma insulin, serum triglycerides, vascular risk, 263
episiotomy, endometriosis, case report, therapy, 75
episiotomy, low birth weight infants, delivery, 135
extrauterine, pregnancy, combined, intrauterine complications, management, 61

family planning acceptors, contraception, physicians, 47
fetal anemia, fetal heart rate pattern, feto-maternal transfusion, sinusoidal fetal heart rate, 271
fetal heart rate pattern, fetal anemia, feto-maternal transfusion, sinusoidal fetal heart rate, 271
fetal weight, fundal height, abdominal circumference, birth weight, measurement, 243
feto-maternal transfusion, fetal heart rate pattern, fetal anemia, sinusoidal fetal heart rate, 271
frozen section, cytological imprint, ovarian tumors, 43
fundal height, fetal weight, abdominal circumference, birth weight, measurement, 243

GAP, Nigerians, progestogenone pill, 163
genetic counseling, prenatal diagnosis, 25
genital malformations, single ectopic ureter, unilateral imperforated vagina, renal agenesis and dysplasia, embriology of the vagina, 179
germ cell tumor, cervical cancer, barrier contraception, ovarian cancer, 157
glucose tolerance, oral contraceptives, plasma insulin, serum triglycerides, vascular risk, epidemiology, 263
grade III placenta, ultrasonography, perinatal outcome, 325

heart, SQUID, magnetocardiography, pre-eclampsia, uncomplicated pregnancies, 329
heterotopic gestation, ovarian pragnancy combined intraturine and extrauterine pregnancy, obstructed labor, incomplete uterine rupture, 283
HPV-16/18, cervical smears, Papanicolaou cytology, cervical dysplasia, cervical carcinoma, Dot-blot hybridization, 145
human, myoma, progesterone receptor, antiprogestin, myometrium, 347
hyperplasia, endometrial carcinoma, cytology, ultrasonography, hysteroscopy, 107
hyperstimulation, score, induction, labor, prostaglandin E_2, overdosage, 131
hypertonic saline induced abortions, prostaglandin E_2 and $F_{2\alpha}$, 355
hysterectomy, menopause, osteoporosis, ovarian function, ovarectomy, ovary, 257
hysteroscopy, endometrial carcinoma, hyperplasia, cytology, ultrasonography, 107

Ilorin, pattern, eclampsia, morbidity, Nigeria, 221
incidental tuberculous endometritis, infertility, developing country, 141
incomplete uterine rupture, ovarian pragnancy heterotopic gestation, combined intraturine and extrauterine pregnancy, obstructed labor, 283
induction, score, labor, prostaglandin E_2, overdosage, hyperstimulation, 131
infertility, incidental tuberculous endometritis, developing country, 141
international cooperation, low birth weight infant, "kangaroo" nursing, neonatal care, mother child relations, developing countries, 335
intrauterine-extrauterine pregnancy, ovulation drugs, 175
intrauterine complications, pregnancy, combined, extrauterine, management, 61
intrauterine growth retardation, maternal serum total cortisol, normal pregnancy, premature rupture of the membranes, premature delivery, post maturity syndrome, 3

"kangaroo" nursing, low birth weight infant, neonatal care, mother child relations, international cooperation, developing countries, 335

labor, ritodrine, uterine dysfunction, 237
labor, score, induction, prostaglandin E_2, overdosage, hyperstimulation, 131
lactate, labor, second stage, bearing down, catecholamines, 117
low birth weight infant, "kangaroo" nursing, neonatal care, mother child relations, international cooperation, developing countries, 335
low birth weight infants, episiotomy, delivery, 135
Lukoy strip, weight, nutrition, arm circumference, women, 231
luteal phase, endometrial biopsy, effects, corpus luteum, endometrial histology, 35

magnetocardiography, SQUID, heart, pre-eclampsia, uncomplicated pregnancies, 329
managemant in labor, conjoined twins, thoracopagus monster, antenatal evaluation, 67
management, pregnancy, combined, extrauterine, intrauterine complications, 61
maternal serum total cortisol, normal pregnancy, intrauterine growth retardation, premature rupture of the membranes, premature delivery, post maturity syndrome, 3
measurement, fetal weight, fundal height, abdominal circumference, birth weight, 243
menarche, menopausal age, questionnaire, social class, parity, 341
menopausal age, questionnaire, menarche, social class, parity, 341
menopause, hysterectomy, osteoporosis, ovarian function, ovarectomy, ovary, 257
mode of delivery, sacrococcygeal teratoma, diagnosis, 275
morbidity, pattern, eclampsia, Ilorin, Nigeria, 221
mother child relations, low birth weight infant, "kangaroo" nursing, neonatal care, international cooperation, developing countries, 335

myoma, human, progesterone receptor, antiprogestin, myometrium, 347
myomectomy, uterine rupture, 167
myometrium, human, myoma, progesterone receptor, antiprogestin, 347

neonatal care, low birth weight infant, "kangaroo" nursing, mother child relations, international cooperation, developing countries, 335
Nigeria, pattern, eclampsia, morbidity, Ilorin, 221
Nigerians, GAP, progestogenone pill, 163
normal child, Down's syndrome, trisomy 21, reproduction, 81
normal pregnancy, maternal serum total cortisol, intrauterine growth retardation, premature rupture of the membranes, premature delivery, post maturity syndrome, 3
nutrition, weight, arm circumference, women, Lukoy strip, 231

obesity, pregnancy, perinatal mortality, Apgar scores, 227
obstructed labor, ovarian pragnancy heterotopic gestation, combined intraturine and extrauterine pregnancy, incomplete uterine rupture, 283
oliguria, dopamine, pre-eclampsia, 57
oral contraceptives, glucose tolerance, plasma insulin, serum triglycerides, vascular risk, epidemiology, 263
osteoporosis, hysterectomy, menopause, ovarian function, ovarectomy, ovary, 257
ovarectomy, hysterectomy, menopause, osteoporosis, ovarian function, ovary, 257
ovarian cancer, cervical cancer, barrier contraception, germ cell tumor, 157
ovarian cyst, pregnancy, 371
ovarian function, hysterectomy, menopause, osteoporosis, ovarectomy, ovary, 257
ovarian pragnancy heterotopic gestation, combined intraturine and extrauterine pregnancy, obstructed labor, incomplete uterine rupture, 283
ovarian tumors, cytological imprint, frozen section, 43
ovary, embryonal carcinoma, case report 287
ovary, hysterectomy, menopause, osteoporosis, ovarian function, ovarectomy, 257
overdosage, score, induction, labor, prostaglandin E_2, hyperstimulation, 131
ovulation drugs, intrauterine-extrauterine pregnancy, 175
oxytocin, prior section, rupture, regional analgesia, 249

Papanicolaou cytology, cervical smears, cervical dysplasia, cervical carcinoma, HPV-16/18, Dot-blot hybridization, 145
parity, menopausal age, questionnaire, menarche, social class, 341
pattern, eclampsia, morbidity, Ilorin, Nigeria, 221
perinatal mortality, pregnancy, obesity, Apgar scores, 227
perinatal outcome, ultrasonography, grade III placenta, 325
physicians, contraception, family planning acceptors, 47
placenta, ADPase, platelet aggregation, pregnancy, umbilical cord, 15
plasma insulin, oral contraceptives, glucose tolerance, serum triglycerides, vascular risk, epidemiology, 263
platelet aggregation, ADPase, placenta, pregnancy, umbilical cord, 15
positive and negative predictive values, roll-over test, pregnancy-induced hypertension, clinical utility, 9
post maturity syndrome, maternal serum total cortisol, normal pregnancy, intrauterine growth retardation, premature rupture of the membranes, premature delivery, 3
pre-eclampsia, dopamine, oliguria, 57
pre-eclampsia, SQUID, magnetocardiography, heart, uncomplicated pregnancies, 329
pregnancy, ADPase, platelet aggregation, placenta, umbilical cord, 15
pregnancy, carcinoma, cervix, 317
pregnancy, cerebellar hemorrhage, arterial venous malformation, 365
pregnancy, combined, extrauterine, intrauterine complications, management, 61
pregnancy, combined pregnancy, ectopic pregnancy, ultrasonography, 361
pregnancy, obesity, perinatal mortality, Apgar scores, 227
pregnancy, ovarian cyst, 371
pregnancy, spleen rupture, 171
pregnancy, umbilical circulation, velocimetry, Doppler, 127
pregnancy-induced hypertension, roll-over test, positive and negative predictive values, clinical utility, 9
premature delivery, maternal serum total cortisol, normal pregnancy, intrauterine growth retardation, premature rupture of the membranes, post maturity syndrome, 3
premature rupture of the membranes, maternal serum total cortisol, normal pregnancy, intrauterine growth retardation, premature delivery, post maturity syndrome, 3
prenatal diagnosis, genetic counseling, 25
prevention, uterine rupture, transfer system, developing countries, 21
prior section, rupture, oxytocin, regional analgesia, 249
progesterone receptor, human, myoma, antiprogestin, myometrium, 347
progestogenone pill, GAP, Nigerians, 163
prostaglandin E_2, score, induction, labor, overdosage, hyperstimulation, 131
prostaglandin E_2 and $F_{2\alpha}$, hypertonic saline induced abortions, 355

questionnaire, menopausal age, menarche, social class, parity, 341

regional analgesia, prior section, rupture, oxytocin, 249
renal agenesis and dysplasia, single ectopic ureter, unilateral imperforated vagina, genital malformations, embriology of the vagina, 179
reproduction, Down's syndrome, trisomy 21, normal child, 81
ritodrine, uterine dysfunction, labor, 237
roll-over test, positive and negative predictive values, pregnancy-induced hypertension, clinical utility, 9
rupture, prior section, oxytocin, regional analgesia, 249
rupture, spleen pregnancy, 171

sacrococcygeal teratoma, diagnosis, mode of delivery, 275
satisfactory and unsatisfactory colposcopic examination, colposcopically directed biopsy, endocervical curettage, 153
score, induction, labor, prostaglandin E_2, overdosage, hyperstimulation, 131
serum triglycerides, oral contraceptives, glucose tolerance, plasma insulin, vascular risk, epidemiology, 263
single ectopic ureter, unilateral imperforated vagina, renal agenesis and dysplasia, genital malformations, embriology of the vagina, 179
sinusoidal fetal heart rate, fetal heart rate pattern, fetal anemia, feto-maternal transfusion, 271
sinusoidal fetal heart rate, twin to twin transfusion, 71
social class, menopausal age, questionnaire, menarche, parity, 341
spleen pregnancy, rupture, 171
SQUID, magnetocardiography, heart, pre-eclampsia, uncomplicated pregnancies, 329

therapy, endometriosis, episiotomy, case report, 75
thoracopagus monster, conjoined twins, antenatal evaluation, managemant in labor, 67
transfer system, prevention, uterine rupture, developing countries, 21
trisomy 21, Down's syndrome, reproduction, normal child, 81
twin to twin transfusion, sinusoidal fetal heart rate, 71

ultrasonography, combined pregnancy, ectopic pregnancy, pregnancy, 361
ultrasonography, endometrial carcinoma, hyperplasia, cytology, hysteroscopy, 107
ultrasonography, grade III placenta, perinatal outcome, 325
ultrasound, ectopic pregnancy, algorithm, culdocentesis, 29
umbilical circulation, pregnancy, velocimetry, Doppler, 127
umbilical cord, ADPase, platelet aggregation, placenta, pregnancy, 15
uncomplicated pregnancies, SQUID, magnetocardiography, heart, pre-eclampsia, 329
unilateral imperforated vagina, single ectopic ureter, renal agenesis and dysplasia, genital malformations, embriology of the vagina, 179
uterine dysfunction, ritodrine, labor, 237
uterine rupture, myomectomy, 167
uterine rupture, prevention, transfe system, developing countries, 21

vascular risk, oral contraceptives, glucose tolerance, plasma insulin, serum triglycerides, epidemiology, 263
velocimetry, umbilical circulation, pregnancy, Doppler, 127

weight, nutrition, arm circumference, women, Lukoy strip, 231
women, weight, nutrition, arm circumference, Lukoy strip, 231
